STATEMENT OF CONCERN

2017 is a pivotal year for Amigos Library Services. With a new CEO at the helm, the opportunity is ripe to examine the effectiveness of current products and services offered. Amigos leadership will need to ensure that they provide maximum value to members while maintaining financial strength and viability. In a time when libraries need more support than ever, Amigos will need to continue to provide innovative, relevant products, services, and support to its members while facing its own challenges in the greater consortial and corporate landscape. It should also continue to be committed to transparency in operation to ensure the most responsible and effective services to its members.

Amigos should continue to build relationships in the greater library community to attract new members and develop beneficial partnerships. Along with this, Amigos leadership and staff should strive to be thought leaders that provide excellent products, services, and continuing education that can be obtained nowhere else.
